WHO ARE WE?

Independent security consultants

The establishment of CST Consulting s.r.o. was based on an idea to **bring professional independent consulting service not only to big corporations, which pay traditionally big attention to security questions, but also to small firms and private persons.**

Our specialists have large experience with management of security projects in financial institutions and big corporations as well as in homes and small firms.

Our main goal is your happiness and your success in business. Use the services of our team of professionals and start with us safe business.

WHAT DO WE OFFER?

For our clients we always prepare complex solution, which minimizes the loss inflicted by insufficient or incomplete adjustments of internal procedures, or we prepare implementation of safety precautions in these areas:

Financial security

Compliance

Physical security

Information security

All of our solutions are optimized for client 's conditions considering economical efficiency of the solution.

SERVICES OVERVIEW

Security consulting

Background check

Safety documentation

Preparation of tender for security technologies and services

Trainings

Dealing with complaints from clients

Crisis management and business continuity management

SERVICES OVERVIEW

SECURITY CONSULTING

We help our clients to improve the system of **security management**, to **save costs** for safety, to **deal with security incidents** including deceptions and to define requirements for security technologies and services.

- *We will evaluate the actual status of settings of processes in physical, information, personnel and financial security.*
- *We will recommend adjustment or the introduction of new strategies, standards and procedures to minimize losses.*
- *We will set control mechanisms.*

We always progress in synergy with client to prevent unnecessary byrocratic burdens and to ensure that the result will be maximally effective process of internal control.

SERVICES OVERVIEW

BACKGROUND CHECK

We offer our clients verification of files about future or current employees or business partners. It is mainly verification of files, which job candidates write in their CVs. Besides the facts mentioned above, our consulting office offers verification of these areas:

- *complex verification of **identity***
- *verification of current or previous **business***
- *verification of achieved **education** and **previous practice***
- *verification of **assets***
- *verification of **insolvency***
- *verification of other public information (internet, social media and more)*

All the information mentioned above is verified fully in accordance with current legislation.

SERVICES OVERVIEW

SAFETY DOCUMENTATION

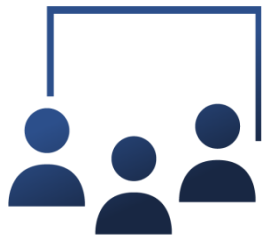

Safety documentation processing in these areas:

- *dealing with conflict of interest between employees and clients*
- *ethical behavior of employees or employer (Code of Ethics)*
- *safety documentation of physical and information security*
- *safety standards of financial security (AML, KYC ...)*

PREPARATION OF TENDER

FOR SECURITY TECHNOLOGIES AND SERVICES

- *processing of technical and organizational assignment selection*
- *proposal of the evaluation criteria*
- *proposal and verification of employees*
- *assistance in evaluation of the offers*

SERVICES OVERVIEW

TRAININGS

Processing of trainings of employees in financial security, prevention of money-laundering and procedures for extraordinary situations (robbery, fire, flood). For corporate clients we offer outsourcing of occupational training, which is required by law, for example in money-laundering area.

DEALING WITH COMPLAINTS FROM CLIENTS

Consulting in dealing with complaints from clients or employees. It is complex service from receipt of the complaint, evaluation of justification, verification of possible internal/external deceptions, proposal of corrective action to the communication with complainant.

SERVICES OVERVIEW

CRISIS MANAGEMENT AND BUSINESS CONTINUITY MANAGEMENT

Every owner and manager of the company deals in his responsibility with the question „What do we do if...?“.

We will help you with the organization of crisis management, we will teach crisis staff and management how to react on critical situations and how to deal with them.

We will make proposals of plans for recovery and for reactions on crises in case of any critical situation. In case of interest we can make these proposals in SW, which automates future administration of these plans. Of course there is also testing of suggested procedures.

In case you are dealing or you are planning to deal with business continuity or improvement of safety processes related to technologies, we will gladly help you.

ABOUT US

Petr Lédl

Business partner and co-founder of CST Consulting. Petr has experience with proposal, implementation and management of complex security (physical security, information security, personnel security, prevention of deceptions), processing of risk analysis, internal investigations, crisis management, detection of counterfeits. He works in security for 20 years. He worked as a security manager on B-1 level in Raiffeisenbank a.s from 2001 to 2011 and previously he worked in similar positions in Česká spořitelna, a.s. and ERSTE BANK SPARKASSEN ČR, a.s. He was awarded Security manager of the year 2006, which is announced annually by Czech branch of international professional security association ASIS.

He was a member of Commission of Banking and Financial Security of Czech Banking Association, where he was a leader of special team Prevention of Bank Robbery. Currently he works as a security consultant in security and management.

Marek Kortus

Business partner and co-founder of CST Consulting. Marek has been working in financial and physical security since 1992. At first he worked in Chequepoint a.s. as a Security Manager, where he was creating standards for financial security. In the years from 1999 to 2003 he was creating procedures for prevention of money-laundering for Česká spořitelna, a.s. After that in the years from 2003 to 2007 he was a head of Compliance department in HVB Bank Czech Republic, a.s. (today known as UniCredit Bank, a.s.). From 2007 to 2010 he worked in LBBW Bank CZ, a.s. first as Compliance specialist and after that he became the head of Operational Risk Management department, where he was responsible for management of operational risks, IT Security and Business Continuity Management. From 2010 he works as a consultant in financial security and physical security.

Marek is a certified Compliance Manager and he was a member of many professional associations, such as Czech Banking Association or Capital Market Association.
